Ensuring Your Continued Success

Get Procore Certified

Procore's role-based training courses teach you how to successfully use Procore on any construction project and earn a "Procore Certified" certificate upon completion that you can add to your LinkedIn profile.

Support Site

Get unlimited access to Procore's premier knowledge base of "how-to" articles and detailed videos. Our support reps are only a phone call, email, or live chat away.

On-Demand Training Webinars

Join Procore's Product Specialists for our Training Webinars. Each session is designed to help you learn Procore's full suite of tools. We'll cover a series of topics and tools during each webinar.

Additional Services

Available by request. Customer Success experts can recommend customized service packages to meet your specific needs. Specialists can offer additional remote training, consulting, and guidance for your staff.

Resources

Our resource library, filled with eBooks, webinars and blogs, is designed to provide thought leadership and best practices to help you and your team learn more about Procore and the construction industry in general.

Business Reviews

Our Customer Success Team will reach out to your administrators and review your usage, adoption, and any bottlenecks we are seeing in your organization.
